PEDRO SOUSA

Brasília, DF | (61) 99969-9784 | pedroeduardo.lsousa@gmail.com
GitHub: github.com/peesousa | LinkedIn: www.linkedin.com/in/pedroeduardo-lsousa

PROFESSIONAL PROFILE

Computer Science undergraduate (7th semester - IFB) with solid experience in Full-Stack and Web Development. Specializing in PHP with Laravel and front-end frameworks such as Angular and Vue.js, and currently enhancing skills in the TALL Stack (Tailwind CSS, Alpine.js, Laravel, Livewire). Experienced with Node.js, JavaScript, Docker, agile methodologies, and SQL/NoSQL databases. Leadership and project management skills developed as President of the IEEE IFB Student Branch. Seeking a challenging Developer opportunity to apply and expand technical skills and actively contribute to innovative projects.

PROFESSIONAL EXPERIENCE

Full Stack Intern
Advice Tecnologia
Brasília, DF | Apr 2024 - Jan 2025
- Developed and implemented features in web applications using PHP with Laravel for the back-end and Angular/Vue.js for the front-end.
- Actively participated in the integration of third-party APIs, optimizing communication between systems.
- Collaborated in building responsive and intuitive user interfaces, improving the user experience.
- Utilized Git and agile methodologies for code versioning and team task management.

Development, Support, and Maintenance Intern
MGA Holding | Unipaper
Brasília, DF | Oct 2024 - May 2025
- Performed website maintenance and hosting on platforms such as Hostinger, WordPress, and Nuvemshop, ensuring high availability.
- Implemented visual and interface updates for the company's E-commerce, aiming to optimize the user experience.
- Developed new web applications and internal platforms using PHP, Laravel, and Vue.js to meet specific company demands.
- Executed preventive maintenance on computer systems and networks, ensuring the operational integrity of the IT infrastructure.
- Provided technical support to clients, troubleshooting issues and enhancing communication and customer service skills.
